Three Queer Things. The curious things which occur in the world on a given day would no doubt if collected excite the wonder of the most incredulous. Yet in a single newspaper there was recently found an account of a woman who was guilty of so infamous a proceeding as going to sleep at a shop while the assistant was in the act of showing her some dress stuffs, accompanying the exhibition with the usual eloquence of

these individuals. The second related the acuteness of two tramps who conceived the idea of going to a fancy dress ball in their ordinary attire. As may be imagined, they devoted the best part of their time to a serious inroad on the resources of the supper room, much to the amusement of the whole party, who naturally thought they were guests who had been invited to the entertainment and who, having made themselves up with exceptional skill for their assumed parts, were carrying out the idea of the characters they represented for the purpose of the jest, The third story was that of an absentminded young woman who playing with a pair of scissors and proceeded to trim off her eyebrows quite unconscious of what she was doing .- Pearson's Weekly,

CASTORIA The Kind You Have Always Bought

INDIGESTION AND DYSPEPSIA.

Indigestion exists when the food is not properly digested. Dyspepsia means literally a lack of pepsin in the stomach, but dyspepsia as commonly understood is simply chronic indigestion. If a healthy stomach is dispordered and cannot digest all the food put into it, temporary indigestion results. Every healthy stomach sometimes gets out of order. Not realizing that such is the case, we eat the usual quantity of food, or perhaps more than the usual quantity, as the appetite is usually abnormal. The stomach fails to digest all the food and indigestion follows. In either case nature needs assistance, and it is wise to give this assistance, for by doing so the discomfort of the attack of indigestion is avoided and often an attack of billousness, cholera morbus, sick headache, etc., is averted. Rydale's Stomach Tablets are just what is needed to do the work the stomach cannot do. They are harmiess, and should be taken by healthy people whenever the stomach is disordered. They are a splendid medicine for children suitering from any stomach or bowel disorder. If the digestive organs are weak foring from any stomach or bowel disorder. If the digestive organs are weak indigestion will prevail, and the patient will suffer from one or more of the following symptoms, sour stomach, heartburn, gas in the stomach, load er lined in the stomach, pain in the stomach, sick headache, nausea, vomiting, nervousness, sieeplessness, etc. Rydale's Stomach Tablets will relieve at once, and if used regularly will soon cure the worst forms of stomach disease.
